Volume 32

January 2026

Number 01

---

## **PRESIDENTS QSO:**

## **Howdy and Welcome to the Grayson County Amateur Radio Club, one and all!**

**Jo VanSlogteren**

I am calling this year “The Year of Participation and Involvement”! We have a lot planned and many things that have been initiated in the past that we want to see come to fruition. For example, we want to finally get the License Training Classes off the ground. Although there are plenty of opportunities to study for a license or upgrade on your own, we feel that many people will benefit from a local class taught by one of our very own Elmers. We also see this as a way to increase our membership.

Another thing that we have talked about and not accomplished in recent years is having a presence at community events. We are planning on selecting 4 city events from our county. We will have a booth and interact with the communities. This will make us visible and hopefully will also increase our membership.

Other projects that have been on-going will continue to proceed forward – such as getting the trailer stocked with tables and a grill and get it wrapped with our logo and taking it out to Field Days and other Special Events.

Now back to that “participation and involvement” – to paraphrase John F. Kennedy, “Ask not what your club can do for you. Ask what you can do for your club.” All of this activity will need volunteers and planners, leaders and followers. Please think about how you will help the club become the very best we can be this year.

I’m looking forward to our first Club Meeting. We have a lot to talk about and the main feature of this January meeting will once again be looking forward to the year and getting your ideas and feedback about the club’s direction.

Hope to see you there!

*Jo, K5EKA*

## Christmas Party 2025 Highlights

Image credit: Tamara Higgins

We had a "GREAT" Christmas Party on December 16<sup>th</sup> at Calhouns 2.0. in Denison. There were 34 members and guests in attendance who enjoyed a great barbecue meal. President Michael Higgins recapped our 2025 events and recognized members for outstanding service to the club. The highlight of the evening was the awarding of the newly created "Lee Sly Award for Excellence in Amateur Radio Operation". As you know Lee has been a longtime member, officer and a elmer to many in the club, especially when it came to HF or POTA. The 2025 Lee Sly Award was awarded to James Frank KW5CW. James, like Lee has been a long time member, officer, newsletter editor and webmaster among other things. Congrats to James Frank!

We had some door prizes from MTC in Paris, Texas that were won by several members. David Turner won a dual band base antenna, Ricky Jessen won a power supply, James Johnson won the handy-talkie/mag mount dual band antenna and Lee Sly won the stick antenna. To round out the evening we had some great music by our DJ, some Karaoke and dancing.

**Merry  
Christmas!**

## Winter Field Day 2026 January 23 - 25, 2026

Image credit: Tamara Higgins

### Winter Field Day is upon us!

Winter Field Day 2026 will be held again at Eisenhower State Park on Friday, January 23, through Sunday morning, January 25. We have "Ike's Cabin" reserved, and several members will be camping in adjacent shelters. Operating will begin Saturday at 1000 hrs CST and end Sunday at 1600 hrs CST. Radio and antenna setup will begin Friday evening and again Saturday morning. Lunch will be provided Saturday, and that evening we will have our 4th annual Chili Competition. Ralph Jerome, KI5NUK, will be trying to hang onto his title.

This year we are operating as a 3-O club, which means we will operate 3 radios and will be outdoors. The club has purchased a canopy with sides and we have heaters in case it's too cold.

The Winter Field Day event aims to help participants improve their preparedness for disasters and enhance their operational abilities in adverse conditions. Amateur radio operators have the freedom to use frequencies on the HF, VHF, or UHF bands while employing voice, CW, and digital transmissions. The event designates specific objectives to encourage a diverse range of activities, including the use of non-commercial power sources, the deployment of multiple antennas, establishing satellite contacts, and more. Click [here](#) to read more about the history and purpose of winter field day. See you at Eisenhower!

## Club Information Page

## Local Repeaters and Nets

### Local Area and Regional Nets

#### North Central Texas Connection

Radio link system covering a large portion of North Central Texas  
<http://www.nctc.info> Thursdays at 2000hrs. on 443.750+ PL 100

#### North Central Texas 2 Meter Simplex Net

<https://www.facebook.com/groups/1239747529713248>  
Fridays @ 8PM on 146.580 +/-

#### North Texas 1.25m Simplex Net

Every Friday night after the 2m Simplex Net, by 9:30pm, you can test your 220 MHz rig on FM simplex. We start the Net on the 220 Texas Link System repeaters, get a list of check ins, and then QSY to 223.500 to see who can make simplex contacts.

*There's not a linked 220 MHz repeater in our area yet, however you can talk simplex when conditions are right.*

#### List of repeaters located in Sherman

147.000 +0.6 MHz PL100 W5RVT OPEN FM
